

# SESSION 17

## POSTER SESSION

**Chairs: Nick Kolarich, Epiworks, Inc.**  
**Kelli Rivers, Vacuum Engineering & Materials Co.**

An important goal of the CS ManTech conference is to provide an environment for the exchange of information and a means to communicate ideas, research, and programs related to the compound semiconductor industry. Following the tradition initiated in 1994, the Poster Session is held in an informal setting designed to encourage such discussion. Conference attendees are invited to attend, view the posters and enjoy light refreshments. Authors, many of whom have traveled from across the globe, will be present to answer your questions.
