

**Noriyuki IWAMURO** received the ph.D degree in electrical engineering from Waseda University, Japan. From 1988 to 2009, he had been engaged in research and development of Si-IGBTs and SiC devices in Fuji Electric Co., Ltd, Japan. From 1992 to 1993, he was a visiting scholar at Power Semiconductor Research Center in North Carolina State University, Raleigh, NC.

In April 2013, he became a professor of University of Tsukuba, Japan. His current research interest is a study of SiC power semiconductor devices.

Prof.Iwamuro has served as a chair of “The Asia-Pacific Conference on Silicon Carbide and Related Materials (APCSCRM 2018)” and a steering committee member of International Symposium of Power Semiconductor Device and ICs (ISPSD 2021). He is a senior member of the IEEE.
