

Paul Fego

Corporate Vice President of Global Operations

Paul Fego is Qorvo's corporate vice president of global operations, responsible for internal and external wafer fabrication, assembly & test technology and manufacturing. Mr. Fego joined Qorvo in July 2018 and was previously vice president and manager of the Worldwide Manufacturing group at Texas Instruments (TI). In his previous role, Mr. Fego managed all of TI's wafer fabrication, assembly and test operations in nine countries. He started his career at TI as a manufacturing supervisor in 1980, rose quickly through the ranks to become manufacturing manager and then left in 1989 to become operations director at ST Microelectronics. In 2002, he became president and chief operating officer at Photronics, Inc., a global leader in photomask solutions for companies that manufacture semiconductors, flat panel displays and other electronic components. He was recruited to return to TI in 2005 to lead its worldwide manufacturing. Mr. Fego earned a bachelor's degree from Rutgers University.
